Re: Docket No. NHTSA-2018-0092, Pilot Program for Collaborative Research on Motor Vehicles with High or Full Driving Automation Advanced notice of proposed rulemaking (Federal Register Notice 2018-21919)

Dear Deputy Administrator King,

Uber Technologies, Inc. respectfully requests a two week extension to NHTSA-2018-0092. We are appreciative of the thoughtful approach NHTSA has taken to addressing policy questions raised by the development of self driving vehicle technology and welcome the opportunity to provide a constructive and thorough response to the questions raised in the ANPRM. The additional time would allow us to prepare a more substantive response to these complicated and technical policy issues.

We appreciate the opportunity to comment on the contemplated pilot program and the agency's continued commitment to safety and stakeholder engagement.

/s/ Noah Zych
