FMCSA-2018-0037

To FMCSA:

The following is a List of Reasons NOT TO EVER HAVE Driverless Vehicles on American Roads!

1. The Lady who was just killed by one in Arizona by Uber Failed Testing!!!(For Cars)
2. 80,000 pound Vehicles(Class 8 Heavy Duty Commercial Trucks)Are you all insane? These vehicles are "rolling Horizontal, 5 Story Buildings!!!Sometimes longer!!!
3. Have you all passed your physicals lately? Including MENTAL EVALUATIONS?
4. You can get away with "Auto Pilot" at 30 or 40,000 Feet in the Air! But putting what amounts to a 80,000 pound potential weapon, controlled by a computer and what amounts to "Auto Pilot on American Highways!!!! Seriously!! What Engineer was "Smoking Crack" when they came up with that "Bright Idea?
5. The Lady who was just killed in Arizona by the "Auto Pilot" Car for Uber! Again, I would say; this IS THE ONLY REASON THAT'S IMPORTANT!!!
6. THE LADY WHO WAS JUST KILLED IN ARIZONA BY WHAT AMOUNTS TO A UBER CAR ON THIS AUTO PILOT!!!! Again, I would say is the MOST IMPORTANT ARGUMENT AGAINST THIS LANE BRAIN IDEA!!!!
7. FMCSA SHOULD ALL BE FIRED!!!! IF YOU EVER ALLOW ANY "AUTO PILOT" OR DRIVERLESS VEHICLES OF ANY TYPE, ON AMERICAN HIGHWAYS, ROADS, STREETS, BLVDS,DIRT ROADS, ETC!!!! AGAIN I SAY, IF ANYONE AT THE FMCSA ALLOWS EVER "AUTO PILOT" OR "DRIVERLESS" VEHICLES ON ANY AMERICAN ROAD EVER!!! YA'LL NEED AND MUST BE FIRED!!!! BECAUSE FRANKLY, YA'LL HAVE LOST YOUR MINDS!!!!!!
