This is NOT the answer to safer roads! This is a race to win the multi billion dollars that will be saved by throwing millions of truckers on the unemployment line. This savings will not reduce shipping costs, it will not benefit consumers in any way. It will simply line the pockets of the corporate fat cats! Motorists will be nothing more than an obstacle for these autonomous trucks.

This is a most irresponsible and dangerous move that will make our roads more dangerous than ever before.

Wake up America, we are not ready for this!

As a tax paying, law abiding citizen, I choose to NOT share the road with autonomous trucks!
