

## Shon Price - Comments

TO WHOM THIS CONCERNS, AUTOMATED COMMERCIAL TRUCKS ARE NOT SAFE TO BE ON THE HIGHWAYS. THIS WOULD BE A TOTAL DISREGARD TO ALL HUMAN LIFE. ARE HIGHWAY SYSTEMS ARE NOT BUILT FOR THIS TECHNOLOGY. THE RUTS,POTHOLES AND UNEVEN LANES ARE JUST A FEW OF THE ISSUES THAT WOULD NEED ATTENTION BEFORE ANY OF THIS WOULD BE SAFE. I DO NOT FEEL THAT THE TECHNOLOGY IS NOT EVEN UP TO THE STANDARD TO EVEN CONSIDER THIS. COMPUTERS, CREDIT CARDS, BANK ACCOUNTS ARE HACKED DAILY, IS THERE A GUARNTTEE THAT THIS IS NOT POSSIBLE TO HAPPEN? IS IT MORE PROBABLE,OR NOT PROBABLE THAT IT CRASHES OR GETS HACKED? HOW MANY PEOPLE WILL DIE BEFORE ITS NOT CONSIDERED ANYMORE?
