

Comment from R S

I was not able to comment on Docket NHTSA-2016-0124-0246, so I am using this one to submit my comments. I am totally frustrated that this decision has not been made - to force GM to replace the AIR BAG IN MY 2007 TAHOE. I am constantly nervous about using the vehicle, especially as it ages...and wonder if the air bag is going to accidentally deploy! This issue should be decided ASAP and owners of vehicles involved given the recall information to get this fixed. Stop the Delay and Please make the Decision!
