Since the recall was issued in 2016 and it is now 2019 it appears that there is no urgency in this matter. I don't know how many people have been injured or killed but I have concerns for myself and my family. Is GM just trying to hold off as long as possible in hopes that there will be less cars to fix? I wonder if anyone from GM, or their family are driving these recalled vehicles. Please do not delay this any longer. It's not fair to all the GM customers stuck with a recalled vehicle. We would have a hard time selling a recalled vehicle and more importantly we don't want our families in danger. I can assure you if anything happens to my family I will have a good lawyer ready to prosecute
