

Comment from Jim Nober

Please do not take away the rear view mirror from my vehicles. God, this back up camera system is nothing but a headache for me. Its is not clear, no depth to the images.... it may look like it car length away but in reality, it right on your rear bumper. The sun distorts the view and I could go on and on... I do not want to have the same problems with my rear view mirror too.

Let my keep my rear view mirror.
