Description

The U.S. Department of Transportation (DOT) National Highway Traffic Safety Administration (NHTSA) is assessing the National Emergency Medical Services Information

System (NEMSIS) infrastructure and operational models for future improvements to technology and standardizing the collection, storage, sharing, and analysis of emergency medical services (EMS) data. To complete the assessment, NHTSA will evaluate all aspects of the current system and complete an evaluation of industry capability using this Request for Information (RFI). Note: RFI responses will NOT be shared with other industry suppliers and will solely be used as part of the planning process.

Disclaimer: The following requested information is for planning purposes only and does not constitute a Request for Proposal (RFP), nor does it restrict the Government as to the ultimate acquisition approach. The government does not intend to award a contract on the basis of this RFI or to otherwise pay for the information solicited. Any contract that might be awarded based on information received or derived from this RFI will be the outcome of the competitive process.
