

Comment from Carl Duke

Hi,

We would like to offer our comments on the Low Volume Manufacturer Law. We were very excited when this law was passed in 2015. We felt like it would be an avenue to provide car enthusiasts with our product, while also creating economy opportunity for our area. We have invested money in inventory, research and tooling, not thinking it would take this extended time to get the law enacted. This has created frustration as well economic stress. We are still very hopeful that the end is near. We do feel that the law will provide opportunity for both small and large businesses. It will allow companies to hire more employees and grow. We do hope that 2020 will be the year that the law is enacted.

Thanks for allowing us to share our comments.

Carl and Donna Duke
