Award Details

- **Contract Award Date:** Sep 16, 2020
- **Contract Award Number:** 693JJ920P000035
- **Task/Delivery Order Number:** NA
- **Contractor Awarded Unique Entity ID (DUNS):**
- **Contractor Awarded Unique Entity ID (SAM):**
- **Contractor Awarded Name:** National Instruments Corp
- **Contractor Awarded Address:** Austin, TX 78759 USA
- **Base and All Options Value (Total Contract Value):** \$70441.25

General Information

- **Contract Opportunity Type:** Award Notice (Original)
- **All Dates/Times are:** (UTC-04:00) EASTERN STANDARD TIME, NEW YORK, USA
- **Original Published Date:** Aug 19, 2020 11:03 am EDT
- **Inactive Policy:** 15 days after contract award date
- **Original Inactive Date:** Oct 01, 2020
- **Initiative:**

- None

Classification

- **Original Set Aside:**
- **Product Service Code:** 7045 - INFORMATION TECHNOLOGY SUPPLIES
- **NAICS Code:** 511210 - Software Publishers
- **Place of Performance:**

East Liberty , OH 43319

USA

Description

VRTC and NHTSA HQ currently use DIAdem software to manage, analyze, and report data. VRTC originally purchased this software package in 2004 and since that time it has been used by our engineers and technicians on a daily basis. In order for VRTC to remain at the forefront of data analysis technology, it is critical that we obtain timely software upgrades from National Instruments, the one and only manufacturer of the DIAdem software package. This purchase will provide automatic DIAdem upgrades and access to National Instruments software engineers via phone and e-mail for technical support. Typically, there is at least one major software upgrade per calendar year (e.g. upgrade from DIAdem 10.0 to 11.0) and several minor upgrades (e.g. upgrade from DIAdem 11.0 to 11.1, and so on). Technical support is also required on an ongoing basis to deal with new problems as they arise; this service has proven to be effective at resolving issues in the past. This purchase will cover the annual license renewal and provide ongoing software upgrades and continued technical support from National Instruments. The purchase covers fifteen (15) licenses for use on VRTC's computer network and provides upgrades and support for DIAdem Advanced Edition and the DIAdem Crash Analysis Toolset. In addition this covers the 10 licenses for use on the HQ servers.

This software is proprietary, available only from the original manufacturer.
