Subject: Annual report of the proportion of vehicles that conform to the specifications of the Commitment to Advancing Automatic Emergency Braking Technology
Docket ID: NHTSA-2015-0101

Pursuant to the Memorandum of Understanding (MoU) dated February 25, 2016, "A Commitment to Advancing Automatic Emergency Braking Technology", Jaguar Land Rover North America, LLC, (Jaguar Land Rover) is submitting information concerning our Automatic Emergency Braking (AEB) Technology. Jaguar Land Rover is submitting this report covering all Jaguar and Land Rover cars and multipurpose passenger vehicles with GVWRs of 8,500 lbs or less.

For the 2020 production year, Jaguar Land Rover produced zero vehicles (0.0%) of Jaguar Land Rover's applicable production of 94,079 vehicles for the U.S. market. While many Jaguar Land Rover vehicles do provide AEB functionality, none currently fully satisfy the terms of the MoU commitment. Work to deliver the NHTSA performance relating to forward event detection continues and will be available on all vehicles in line with the voluntary agreement timings.

Sincerely,

A handwritten signature in black ink, appearing to read "James C. Patterson".
