Crash / Collision - Safety Ratings - (Standard or Regulated / Optional / Other Colors)		Avoidance		Safety Features	
Protection					
105mph ★					Drive Paddle Shift
95mph ★ Front Center-3/4			Front Collision Warning		Separable Safety Cage
85mph ★				Side Lane Departure Warning	High-Speed Warnings
75mph ★ Front 1/2-1/4	Rear Center-3/4				
65mph ★ Side Center-3/4	Rear 1/2-1/4				
55mph ★					Automatic Hi/Low Beam
45mph ★			Front / Side Traction Automatic		
35mph ★			Front Brake Stop Automatic		
25mph ★				Front Pedestrian Warning	Front Seatbelt Airbag
15mph ★ Rear Pedestrian	Front Pedestrian		Rear Brake Stop Automatic	Rear Pedestrian Warning	Parking Assist

National Highway Traffic Safety Administration (NHTSA)

Crash / Collision Tests Are Under Laboratory Conditions At Speed Indicated +/- 4mph

Crash Protection For Passengers In All Seat Locations At 100% Survival

Collision Avoidance Technology Has 100% Proof Of Function

Actual Crash / Collision Conditions Are Simulated Within 80%

- TEST VEHICLE -

0162-MA

10 STAR Speed Safety Rating System New Car Assessment Program Progressive Sticker Designs

Direct Advantages:

- **Advances Common Known Star Ratings For Safety**
- **Uses Speed As The Measurement Of Performance**
- **Uses Speed To Set Function Limits Of Technology**
- **Shows Both Crash Protection and Collision Avoidance Technology**
- **Features Silver, Family, and Performance Demographics**
- **Clarifies Standard or Regulated and Optional Safety Features**
- **Certifies 100 Percent Function Of Specified Technology**
- **Certifies Testing Is Within 80 Percent Of Actual Conditions**
- **Simplifies Incremental Design Intention To Go Faster Safer**
- **Advances Transportation Safety Technology For Production & Prototypes**
- **Enables Federal Oversight Of State Certified Public Road Prototype Tests**

Resulting Advantages:

- **Consumers Clearly Know What Level Of Safety They Purchase**
- **Automakers Are Clearly Empowered To Drive Increased Safety**
- **Regulators Are Relieved From Defining Roadmap Of Technology**
- **Simplified Regulation Language**
- **Simplified Safety Standards**
- **Advanced Certified Safety Testing**
- **Advanced Safety Technology Budgets**
- **Reduced Recall Rates With Standard Safety Requirements**
- **Increased Availability Of Standard Safety Components**
- **Generates Higher Expectations At Higher Speeds**
