#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same MY as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice of each petition that it receives in the **Federal Register** and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Diversified Vehicle Services Inc. (DVS), (Registered Importer R–98–165), of Indianapolis, Indiana has petitioned NHTSA to decide whether nonconforming 2014–2018 Chevrolet 2500 TKs are eligible for importation into the United States. The vehicles which DVS believes are substantially similar are MY 2014–2018 Chevrolet Silverado TKs sold in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner claims that it compared non-U.S. certified MY 2014–2018 Chevrolet 2500 TKs to their U.S. certified counterparts and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

DVS submitted information with its petition intended to demonstrate that non-U.S. certified MY 2014–2018 Chevrolet 2500 TKs, as originally manufactured, conform to many applicable FMVSS in the same manner as their U.S.-certified counterparts, or are capable of being readily altered to conform to those standards. Specifically, the petitioner claims that the non-U.S. certified MY 2014–2018 Chevrolet 2500 TKs, as originally manufactured, conform to: FMVSS Nos. 102, *Transmission Shift Position Sequence, Starter Interlock, and Transmission Braking Effect*, 103, *Windshield Defrosting and Defogging Systems*, 104, *Windshield Wiping and Washing Systems*, 106, *Brake Hoses*, 108, *Lamps, Reflective Devices, and Associated Equipment*, 110, *Tire Selection and Rims and Motor Home/ Recreation Vehicle Trailer Load Carrying Capacity Information for Motor Vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or Less*, 111, *Rear Visibility*, 113, *Hood Latch System*, 114, *Theft Protection*, 116, *Motor Vehicle Brake Fluids*, 118, *Power-Operated Window, Partition, and Roof Panel System*, 119, *New Pneumatic Tires*, 124, *Accelerator Control Systems*, 126, *Electronic Stability Control Systems For Light Vehicles*, 135, *Light Vehicle Brake Systems*, 138, *Tire Pressure Monitoring Systems*, 201, *Occupant Protection in Interior Impact*, 202, *Head Restraints; Mandatory Applicability Begins on September 1, 2009*, 203, *Impact Protection for the Driver from the Steering Control System*, 204, *Steering Control Rearward Displacement*, 205, *Glazing Materials*, 206, *Door Locks and Door Retention Components*, 207, *Seating Systems*, 208, *Occupant Crash Protection*, 209, *Seat Belt Assemblies*, 210, *Seat Belt Assembly Anchorages*, 212, *Windshield Mounting*, 213, *Child Restraint Systems*, 214, *Side Impact Protection*, 216, *Roof Crush Resistance; Applicable Unless a Vehicle is Certified to § 571.216a*, 219, *Windshield Zone Intrusion*, 301, *Fuel System Integrity*, 302, *Flammability of Interior Materials*, 49 CFR part 541, *Theft Prevention*, and, 49 CFR part 565 *VIN Requirements*.

The petitioner also contends that the subject non-U.S. certified vehicles are capable of being readily altered to meet the following FMVSS, in the manner indicated:

FMVSS No. 101, *Controls and Displays*: The instrument cluster will require the addition of the word “BRAKE”.

The petitioner additionally states a reference and certification label will need to be added to the left front door post area to meet the requirements of 49 CFR part 567.
