

## **Comment from Martin Shepherd**

Posted by the **National Highway Traffic Safety Administration** on Mar 14, 2022

Greetings,

First - I would support this research if the research is required for approval of the usage of video monitoring/display of side and rear view in the place of physical side/rear view mirrors.

Second - I would be more in favor of the requirements being changed to allow the usage of video monitoring/display of side/rear views to replace physical mirrors **WITHOUT** spending additional money on the research!

Best regards,  
Martin Shepherd
