

Trucking With the Schmitts - Comments

Seriously? This is what we tax payers spend money on? I see you did a figure of how much will be paid to the officers to participate in this program. What about how many tax payers dollars are used by the NHTSA to administer this program?

As far as accident reporting. We need to know a few things if accidents involve Commercial Vehicles.

- 1) Is the CMV equipped with a functioning ELD, which was being used at the time of this accident?
- 2) How many years of experience does the CDL holder have?
- 3) Where did they receive their training? (THIS is not necessary for CDLS issued after 2/7/2022, as this will be on the CDL information.
