I recommend we ban OHV, ATV, UTV or whatever the 4 wheelers are labeled from public lands and all road ways. The only people who should be driving these vehicles for recreation are disabled and senior citizens. Ranchers and farmers should be able to use them for work.

These machines are a dangerous nuisance and should be banned. They are un american and people should get in nature by walking or riding a bike, not riding on these gas wasting machines. European allies are going to have a cold winter and people in america are joy riding on OHV's. I bet they complain about the cost of fuel too.

They are also the cause of a ton of accidents and obstruct traffic on highways and roads. Prohibit them now.
