Please listen to what I have to say I'm neither Democrat or republican but I'm a registered independent. I vote with what I think is right but sometimes in the trucking industry I feel like the rules are made on what big company's want but me and my brother was raised on my dad been a trucker and mom stay at home. Please consider people like this and be fair with owner ops and mega carriers mega carriers don't keep drivers because of treatment and pay the old school dems would be for the working people somewhat but Please let small companies/fleets be able to give some competition to bigger companies isn't that is what America is built on I beg you please stop the things against small companies. Small is what made America who we are today we are capitalist and you get better advancement between competition. Please don't let what party you are make the wrong decision and make people quit trucking especially people whose been around along time who has experience and knows how to drive just look up the accident rates with young inexperienced drivers if you do a mandate under 70 to 75 your gonna have more accidents the university of Arkansas proved it. Trucks should have same speed limits as cars atleast. Out west has high speed limits if it's not atleast 72 to 75 its not right and you are hurting small businesses which is what our country is built on. There are so many minority truck drivers you all should respect all of us Please high fuel prices is making my family struggle. I beg you
