Re: Docket NHTSA-2019-0126

Pursuant to Hyundai Motor America's "Commitment to Implement Rear Seat Reminder Systems" (the "Commitment") on most of its new vehicles by 2022, Hyundai Motor America hereby reports that:

Rear Occupant Alert ("ROA") technology conforming to the Commitment was included on 96% of light duty vehicles manufactured for sale in the United States from September 1, 2021 through August 31, 2022.

The above figure excludes the discontinued Hyundai Accent, Ioniq and Veloster models pursuant to the Commitment. Please contact me if you have any questions on this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read 'B. Latouf'.

Brian Latouf  
Chief Safety Officer  
North American Safety Office

Pursuant to Hyundai's voluntary commitment to advancing rear occupant alert, Hyundai currently offers ROA technology in the following 2019-2023 model year vehicles:
