

in June 2022 under OMB emergency approval and is seeking renewal of this approval through OMB's standard PRA clearance process. Accordingly, DOT announces that these information collection activities have been re-evaluated and certified under 5 CFR 1320.5(a) and forwarded to OMB for review and approval pursuant to 5 CFR 1320.12(c).

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The requirements are being submitted for clearance by OMB as required by the PRA.

Title: All Stations Accessibility (ASAP).

OMB Control Number: 2132-0582.

Background:

The Bipartisan Infrastructure Law, enacted as the Infrastructure Investment and Jobs Act (Pub. L. 117-58), established a new All Stations Accessibility Program (ASAP) to provide Federal competitive grants to assist eligible entities in financing capital and planning projects to upgrade the accessibility of legacy rail fixed guideway public transportation systems for people with disabilities, including those who use wheelchairs, by increasing the number of existing stations or facilities for passenger use that meet or exceed the new construction standards of Title II of the Americans with Disabilities Act of 1990. Funding under this program can be used to repair, improve, modify, retrofit, or relocate infrastructure of legacy stations or facilities for passenger use, including load-bearing members that are an essential part of the structural frame, to meet or exceed current ADA standards for buildings and facilities; or planning related to pursuing public transportation accessibility projects,

assessments of accessibility, or assessments of planned modifications to legacy stations or facilities for passenger use.

 - Description of the applicant's business operations, in sufficient detail to demonstrate how the applicant meets the statutory requirement as a municipality or community owned utility.
