Under Glossary of Terms on page 257 of the draft the term "Trailing Unit - Attached trailer of a motor vehicle or occupant of a motorcycle caboose." BTW, it appears the same in the current edition.

I can understand a trailer (i.e. lawn, utility, roofer kettle etc.), but in my 55 years of riding a motorcycle and having been an MSF Instructor, what is a motorcycle caboose? And it is occupied by some person other than the operator of the motorcycle?
