Descriptive Information : Suburban Manufacturing has decided that a defect which relates to motor vehicle safety exists in SDS2 – 2 Burner cooktops that were installed in recreational vehicles. The internal aluminum burner tubes connecting the gas valves to the cook top burners can fracture from excessive vibration or shock experienced in recreational vehicles. The burner tube could crack resulting a leak of propane when the top burner gas valve is opened to use the appliance. If ignited the propane could result in a fire and/or explosion which could result in personal injury.
