**Background:**

The National Highway Traffic Safety Administration's (NHTSA) mission is to save lives, prevent injuries, and reduce traffic-related health care and other economic costs. The agency develops, promotes, and implements effective educational, engineering, and enforcement programs with the goal of ending vehicle crash tragedies and reducing economic costs associated with vehicle use and highway travel. The Office of Vehicle Safety Compliance conducts extensive research, development, testing, crash investigation, and data collection and analysis activities to provide the scientific basis needed to support the Agency's motor vehicle and traffic safety goals. In addition to supporting internal NHTSA efforts, NHTSA-sponsored research provides high-quality publicly accessible data that serves as the basis for countless other research endeavors.

As part of its mission to reduce fatalities and injuries caused by motor vehicle crashes, the National Highway Traffic Safety Administration promulgates Federal Motor Vehicle Safety Standards (FMVSS) through vehicle compliance testing under IDIQ Multi-Standard Vehicle Testing Contracts. Manufacturers of motor vehicles and items of motor vehicle equipment are required to certify that each product they sell in the United States meets the requirements of all applicable safety standards.
