Description of Noncompliance :

Description of the Noncompliance : Certain Winnebago vehicles are equipped with front turn signal lamps that do not meet the luminous lens area requirements. As such these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard FMVSS No. 108, "Lamps, Reflective Devices, and Associated Equipment."

FMVSS 1 : 108 - Lamps, reflective devices, and assoc. Equipment

FMVSS 2 : NR

Description of the Safety Risk : The failure to be equipped with turn signals compliant with FMVSS No. 108, "Lamps, Reflective Devices, and Associated Equipment", reduces other road users' visibility of the signal lamps. Reduced visibility may lead roadway users to misunderstand the intent to turn or make lane changes which increases the risk of a crash.

Description of the Cause : The turn signals in certain Winnebago vehicles are smaller than the required minimum lens area.

Identification of Any Warning that can Occur : NR

Involved Components :

Component Name 1 : Lamp ASM - Park/Turn

Component Description : Lamp ASM - Park/Turn

Component Part Number : 146560

Supplier Identification :

Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

Chronology :

In late July of 2022, while in discussions with a lamp manufacturer on a new turn signal, the lamp manufacturer informed Winnebago there was a concern that the current lamp did not meet FMVSS 108 requirements for effective projected luminous lens area for Class A motorhomes. An investigation and subsequent assessment of the subject turn signal and relevant standards confirmed the concern. The

Winnebago Product Safety Committee met to review the issue in early November and determined that the turn signals were noncompliant, however no safety risk was identified. Therefore, it was decided to file the required 573 and submit a petition for inconsequential noncompliance.

On September 24, 2024 NHTSA completed their review and denied the petition for inconsequential non-compliance. Winnebago acknowledged the denial and filed this notice of defect in response.

There are no known incidents associated with this noncompliance.

Description of Remedy :

Description of Remedy Program :	Reimbursement requests will follow the general reimbursement plan on file with NHTSA.
How Remedy Component Differs from Recalled Component :	The remedy involves replacing the non-compliant lights with new lights that comply with Federal Motor Vehicle Safety Standard FMVSS No. 108, "Lamps, Reflective Devices, and Associated Equipment."
Identify How/When Recall Condition was Corrected in Production :	Winnebago Motorhomes no longer installs the non-compliant lights.

Recall Schedule :

Description of Recall Schedule :	Recall schedule for notifications will be within the 60 day requirement.
Planned Dealer Notification Date :	OCT 14, 2024 - OCT 14, 2024
Planned Owner Notification Date :	NOV 28, 2024 - NOV 28, 2024
